

# WHAT IS THE REVEALED EXPERIENCE?

**WELCOME** to Theology of the Body Institute's three-day LIVE **Revealed** online experience. We have been blessed by the many virtual conferences in the past years, but this year we wanted to create a new immersive online experience for you. One that you could experience and feel apart of, instead of only watching.

As an attendee of **Revealed**, you are part of a unique event where top Catholic voices come together in person over one weekend to share the good news of St. John Paul II's Theology of the Body teachings as it applies to the most pressing issues in today's culture.

There are three ways to experience this weekend:

1. **Free Online** attendees will have access to all of the incredible keynote talks, as they are broadcast live. Free attendees can also upgrade to Premium VIP.
2. **Premium VIP Online** attendees receive live access to the talks as well as bonus conversations with the speakers after their talk (with an opportunity to ask questions), and special After Hours sessions Friday and Saturday night where all of the speakers from the day get together for one fun conversation to cap off the evening. You also receive long-term access beyond the weekend to all of this content. [Click here to upgrade.](#)
3. Those who purchased a very limited number of **In-Person experiences** are in the room for everything, with special opportunities to meet the speakers and hang out in a relaxed environment. In-Person attendees also receive the Premium VIP Online perks.

However you experience **Revealed**, we pray that God's unconditional love is **revealed** to you in new, healing and inspiring ways so you can "become what you are!"
